A COMPREHENSIVE PRODUCT RANGE

Condair offers a complete range of air humidification and dehumidification systems. Being able to select from every available technology allows Condair to closely meet every project’s individual needs with the most suitable product.

STEAM HUMIDIFIERS

**Condair EL**
Electrode boiler humidifier
Reliable steam humidification that is easy to install, use and service.

**Condair RS**
Resistive humidifier
Innovative scale management and no disposable boiling cylinders.

**Condair ESCO**
Live steam humidifier
Uses a building’s existing hygienic steam supply.

**Condair SE**
Steam-to-steam humidifier
Uses a building’s impure steam supply to create pure humidifying steam.

**Condair CP3 Mini**
Low capacity electrode humidifier
Up to 4kg/h of steam direct to a room or to an AHU.

**Condair RM**
Low capacity resistive humidifier
Offers 2-8kg/h of steam for in-duct humidification.

**Condair GS**
Gas-fired humidifier
Steam humidification with the operating economy of gas.
ADIABATIC HUMIDIFIERS

**Condair ME**
Evaporative in-duct humidifier
Provides low energy humidification and evaporative cooling.

**Condair DL**
Hybrid in-duct humidifier
Close control, spray and evaporative humidifier.

**Condair HP**
High pressure in-duct humidifier
Spray humidifier delivering humidification and evaporative cooling to multiple AHUs.

**Condair US**
Ultrasonic in-room humidifier
Very low energy cool mist humidifier with fan unit.

**Condair JetSpray**
Compressed air and water spray humidifier
Direct room spray humidifier with rapid evaporation and highly directional aerosols.

**ML System**
High pressure in-room humidifier
Water treatment and pressurisation plant with a selection of direct air nozzle systems.

**Defensor PH**
Mobile evaporative humidifier
Suitable for areas up to 900m² and can be plumbed-in or fed via a water tank.

**Condair ABS3**
Rotary Disk Atomizer
Economic cool mist system ideal for production and agricultural areas.
DEHUMIDIFIERS

Condair DA
Desiccant dehumidifier
Ideal for drying at low temperatures or when low humidity levels are needed.

Condair DC
Condensing dehumidifier
Ideal for drying down to around 50%RH and at temperatures above 15°C.

Condair DP
Swimming pool dehumidifier
A comprehensive range of dehumidifiers for small to large commercial pools.

OTHER PRODUCTS

Condair RO
Water treatment system for humidifiers.

Condair OptiSorp
Rapid evaporation steam distribution system.
Condair offers a complete before and after sales service across the Middle East.

**A Comprehensive Service**

**Expert advice and system design**
Free guidance on best practise in humidity control, product strategy, selection and sizing.

**Installation and commissioning**
Delivering the manufacturer’s expertise on-site for optimum system set-up.

**Experienced humidifier technicians**
Providing reactive or planned preventative maintenance agreements.

**Spares department**
Experienced staff help you identify which part you need and get it to you quickly and efficiently.
Global Expertise, Local Solutions

Condair has manufacturing facilities in Asia, North America and Europe, as well as sales operations in 20 countries and distributors in over 50 more.

The company has been serving global industry and commerce for over 80 years and is highly experienced in creating the ideal environment for improved manufacturing efficiency, human health or preservation.

With continuous investment in product development, Condair maintains the world’s most advanced range of humidity control systems. Ongoing product innovation ensures Condair’s products offer the lowest possible energy consumption, provide users with low maintenance operation and the highest possible technical performance.
